

## **SOE2026 Race Stage 1**

### **(Bukit Timah: Rifle Range Trail – Senapang Link – Meek Creek)**

Kid-duro 1<sup>st</sup> Timed Stage / Enduro 1<sup>st</sup> Timed Stage

Distance: 850m | Total Ascent: 6m | Total Descent: 26m | Av. Gradient: -2.4% |

Duration: 1min30sec – 3min30sec

Description: Starts with a flat sprint on an old village road. Rail a sharp right turn into a sneaky uphill, followed by multiple rock garden line choices. Enjoy picking your way down and cross the finish just where the bridge over the creek is.

## **SOE2026 Race Stage 2**

### **(Bukit Timah: Cliffhanger – Kinematic Lab)**

Kid-duro 2<sup>nd</sup> Timed Stage / Enduro 2<sup>nd</sup> Timed Stage

Distance: 345m | Total Ascent: 0m | Total Descent: 18m | Av. Gradient: -5.2% |

Duration: 1min – 3min

Description: A new challenge for Kid-duro course racers: both the A-Line and B-Line near the start are open this year – the same as Enduro course racers. Begins narrow and drops fast into a fun sequence of rock gardens, roots, and fast corners. Please be aware of the strict closure of a connecting shortcut after the ‘cliff’ segment for all racers – due to erosion damage. There is a ‘surprise drop’ just before the finish...hint: it’s rollable; or ride around on the right of it.

## **SOE2026 Race Stage 3**

### **(Bukit Timah: Drop & Rock)**

Kid-duro 3<sup>rd</sup> Timed Stage (B-Line only) / Enduro 3<sup>rd</sup> Timed Stage (A-Line only)

Distance: 520m | Ascent: 5m | Descent: 11m | Av. Gradient: -1.6% |

Duration: 1min – 2min30sec

Description: The ‘loudest’ stage of SOE2026. Enjoy the short warm-up rock garden near the start before hitting the spiciest and most spectator-filled section of the entire event: Drop and Rock AKA ‘7 Drops’ for the Enduro course; Kid-duro racers take the B-Line alternate descent. A short sprint to the finishing flat ends the stage.

## **SOE2026 Race Stage 4**

### **(Chestnut: Little Wings Upper)**

Enduro 4<sup>th</sup> Timed Stage (take the 2<sup>nd</sup> right: longer, more pedal-y option)

Distance: 442m | Total Ascent: 3m | Total Descent: 12m | Av. Gradient: -2.0% |

Duration: 1min15sec – 2min30sec

Description: Starts out pedal-y, take the second right turn on Little Wings to a technical traverse, which can be tricky in wet weather. The stage's lower half has several tight corners and root sections to keep you entertained.

## **SOE2026 Race Stage 5**

### **(Chestnut: Slider)**

Enduro 5<sup>th</sup> Timed Stage

Distance: 464m | Total Ascent: 2m | Total Descent: 14m | Av. Gradient: -2.9% |

Duration: 1min30sec – 3min

Description: Lots of flat turns, roots, some ruts, and even a surprise climb in the middle – this stage has it all. Bring your cornering A-game. The finish line sensor is on the final straight before you cross the narrow drain crossing at the bottom of the gully.

## **SOE2026 Race Stage 6**

### **(Chestnut: On The Rocks - Watchtower Blue - Pango (return))**

Enduro 6<sup>th</sup> Timed Stage

Distance: 1100m | Total Ascent: 6m | Total Descent: 25m | Av. Gradient: -1.7% |

Duration: 3min – 7min

Description: Gangsa's little-known downhill classic features on this 'Queen stage': an opening rock garden roll-in, shaded jungle switchbacks, then another chunky rock garden exit. Things get extremely physical as you pedal past the watchtower (and cheering crowds), before diving back into tight jungle tech. Watch out for the awkward rock chicane as you exit the singletrack, and blitz the final downhill sprint towards the concrete bridge.
